Mr. Breeze:

EPA is requesting access to the Rotary Drilling Supply, Inc. property the week of Monday, June 25th. Two EPA representatives plan to collect samples of the coal ash piles on the property. The process should not take more than a half hour.

Please provide a response to this request by COB this Thursday, June 21st. If access is granted, please provide instructions for entering the property and if our EPA representatives will be meeting anyone from Rotary Drilling.

Thank you for your assistance in this matter.
